CONSERVEWARE™

BAGASSE

AN ENVIRONMENTALLY FRIENDLY ALTERNATIVE

The natural beauty of Nature's design has been something mankind has attempted to replicate since the dawn of time. Finally, Fineline Settings has not only brought the same stunning look and reliability to your table that you have come to know and love, but with the added bonus of truly eco-friendly products that you can feel good about.

Bagasse is a natural molded fiber material made of sugarcane pulp which is BPI Certified compostable! Comprised of ingredients found by the perfect manufacturer, Mother Nature, these organic, renewable materials have created the perfect food purveyor for picnics, barbecues, and more. This conservation inspired collection has all of the classy looks and durability of Fineline disposables you expect, with earth-conscious catering at the forefront.

Going green has never looked so great!
