

# We Choose Sustainability

Better Earth innovates sustainable foodservice packaging emphasizing aesthetic, utility, and value. We work hard to evolve sustainable products as the solution for all foodservice packaging.

We carefully develop our robust suite of commercially compostable products to meet the most demanding sustainability requirements while providing optimum balance of price, aesthetic, and performance.

CHOOSE SUSTAINABILITY WITH BETTER EARTH.

# FIBER COLLECTIONS

Our 100% compostable fiber collections: Sugarcane, Eco-Bamboo, and Element offer a wide selection of colors to best match your desired look while blending elegant design with the durability expected by today's consumers. They are comprised of tree-free, sustainable & renewable resources rather than fossil fuels. This lowers the product's carbon footprint and ensures 100% compostability in commercial settings. Choose from a dynamic selection of clamshells, plates, bowls, platters, and utility trays covering a broad range of applications to fit your specific needs.

**BETTER PACKAGING. BETTER EARTH.**

*All Better Earth Fiber Collections are compostable.*

## ECO-BAMBOO COLLECTION

- Made from natural unbleached compostable bamboo pulp with a sleek kraft design
- Bamboo is a fast-growing fiber, ensuring long-term sustainability
- With its long fibers, bamboo allows for strength and durability at a lower gram weight
- Sustainable alternative to petro-chemical based products
- Tan color
- Ideal for many food applications ranging from lightly fried to table side to-go
- Oil resistant
- Can withstand hot and cold foods
- Microwave safe

### SUGARCANE COLLECTION FIBER UTILITY TRAYS

	ITEM #	UNITS PER CASE
5-Compartment Sugarcane Tray	BE-FT5	500

## SUGARCANE COLLECTION

- 100% compostable sugarcane fiber with a high quality classic white design
- Made from tree-free bagasse, a sustainable and compostable resource which is a byproduct of sugar extraction
- Sustainable alternative to petro-chemical based products
- Sugarcane fiber is ideal for many food applications—especially fried foods!
- Can withstand hot and cold foods
- Microwave safe
- Oil resistant

CUSTOM PRINTING  
AVAILABLE  
ON CLAMSHELLS

see pg. 7

## ELEMENT COLLECTION

- Made from 100% compostable blended bagasse and reclaimed wheatstraw pulp with an upscale elegant design and excellent strength
- By reclaiming wheatstraw—a seldom used byproduct from wheat grain harvesting—waste can be diverted from landfills
- Affluent line, point of differentiation from most all fiber products
- Sustainable alternative to petro-chemical based products
- Wheatstraw as a heavier fiber makes for a more robust container ideal for high moisture, heavier food applications
- Marble color
- Great texture, easier to hold and grip
- Oil resistant
- Can withstand hot and cold foods
- Microwave safe

# CUSTOM PRINTED CLAMSHELLS

Our custom printed 100% compostable fiber clamshells offer an upscale, durable and sustainable alternative to foam products. We offer digital 4-color process custom printing on our fiber clamshells which allows for unmatched flexibility without high minimums and extra color plate charges.

This packaging is lightweight, sturdy, and perfect for all types of foods.

**BETTER PACKAGING. BETTER EARTH.**

*All Better Earth clamshells are compostable.*

## CUSTOM PRINTED CLAMSHELLS

- Custom printing available on all three fiber collections: Eco-Bamboo Collection, Sugarcane Collection, and Element Collection
- Our digital four-color process printing is quick and easy. Send us high resolution logo files and any info you want included. We'll take care of the rest!
- Unmatched custom printing capabilities using wide range of colors in CMYK spectrum, with no extra color charges allowing you to have as many colors as you want
- Our quick process allows artwork changes quarterly to promote specials & events, engage social media followers, increase traffic to your website, or anything you imagine

## LOW MINIMUMS

- Our easy digital process allows you to have lower minimums, so you can order reasonable amounts for your storage and budgeting needs
- Custom sustainable packaging for diverse range of businesses
- Two pallet minimum
- Can be a pallet of one clamshell size, second pallet of another clamshell size, with the same print job
